

## ■ Safety consideration

The products listed below contain hazardous substances. Dispose of properly in full compliance with the Waste Management Law or entrust the work to a licensed industrial waste disposal firm. Any disposal practice must be in compliance with the relevant country, local, state, and federal laws and regulations (contact country, local or state environmental agency specific rules).

Product	Hazardous substance (chemical element)
<ul style="list-style-type: none"><li>·MCT (HgCdTe) photoconductive detector</li><li>·MCT photovoltaic detector</li></ul>	Mercury: Hg
<ul style="list-style-type: none"><li>·MCT (HgCdTe) photoconductive detector</li><li>·MCT photovoltaic detector</li></ul>	Cadmium: Cd
<ul style="list-style-type: none"><li>·PbS photoconductive detector</li><li>·PbSe photoconductive detector, etc.</li></ul>	Lead: Pb
<ul style="list-style-type: none"><li>·InGaAs PIN photodiode</li><li>·InGaAs APD</li><li>·InGaAs image sensor</li><li>·InAsSb photovoltaic detector</li><li>·GaAs PIN photodiode</li><li>·GaAsP photodiode</li><li>·Infrared LED, etc.</li></ul>	Arsenic: As
<ul style="list-style-type: none"><li>·PbSe photoconductive detector</li><li>·MCT (HgCdTe) photoconductive detector (ZnSe window type)</li></ul>	Selenium: Se
